

Do you need a Powder Room?

White House Units

Do your wedding plans include portable restrooms?
Choose from our selection of elegant and convenient "Pretty Potties."

Comfort Suite

We prefer to set our **White Houses** in pairs as one has a urinal and one does not. These units are equipped with a mirror and a private sink and are furnished with soap, paper towels, and an instant hand sanitizer.

The Comfort Suite is a portable restroom trailer that has two private spacious rooms. This unit features indirect lighting, simulated wood flooring and air conditioning or heat. Each room is equipped with a flushing toilet, a sink with running water, soap, paper towels, and an instant hand sanitizer.

Comfort Station

The Comfort Station is divided into two rooms. The women's side has two private stalls complete with flushing toilets and a sink with running water. The men's side has a stool, a urinal, and a sink with running water. Soap, paper towels, and an instant hand sanitizer are included.
